INTRODUCTION

FROM VISION TO
PREMIUM SPACES

Green Structure transforms ideas into stunning, functional spaces through innovative architecture, interior design, and expert general contracting across Egypt’s Red Sea — El Gouna, Hurghada, Soma Bay, and Makadi Heights.

We manage every stage of the journey in-house— from the first site visit and 3D & 2D design, through detailed engineering and construction, to custom furniture and final finishing — so our clients deal with one team, one vision, and one standard of quality from concept to handover.

INTRODUCTION

HOW WE WORK

At Green Structure, we believe that every successful project starts with a clear process and a strong understanding of our clients’ vision. From the initial consultation to the final handover, we manage every stage with precision, transparency, and attention to detail.

Our structured approach ensures a seamless journey from concept to completion, delivering spaces that combine quality craftsmanship, functionality, and refined design.

SCOPE OF WORK

.Contact

We start by understanding your needs, preferences, and project requirements. Our team gathers all the essential information to clearly define your vision and expectations.

.Site Visit & Design

Our team visits the site to take accurate measurements and assess the existing conditions. Based on this information, we develop a practical and creative design concept tailored to your space.

.Quotation

After finalizing the scope and design requirements, we prepare a detailed project quotation. The quotation clearly outlines the costs, materials, quantities, and services to ensure complete transparency.

.Works

Once everything is approved, our experienced team begins the implementation and construction process. We carefully manage every stage of the work while maintaining quality, precision, and the agreed timeline.

.Handing Over

After completing the works, we carry out final adjustments and detailed quality inspections. We then hand over your completed space, ensuring every detail meets our standards and your expectations.

WHAT SETS US APART

- **One team, full scope** — from 3D & 2D design through construction to final finishing.
- **Multi-sector expertise** — hospitality, residential, cultural, and infrastructure projects.
- **On-time delivery** — projects completed on ambitious, tightly managed timelines.
- **Trusted across the Red Sea** — El Gouna, Hurghada, Soma Bay & Makadi Heights.

FROM VISION · TO PREMIUM SPACES

The company has completed more than 30,000 square meters of design and construction work, plus over 22,000 square meters of infrastructure work such as road paving, backed by a team of more than 200 skilled professionals, all spread across 4 key destinations on the Red Sea.

The next section highlights the company's key strengths: managing every project stage with one in-house team from design to final finishing, having expertise across multiple sectors including hospitality, residential, cultural, and infrastructure work, committing to on-time delivery even under tight deadlines, and earning trust across all Red Sea destinations.

It closes with the tagline “From Vision to Premium Spaces,” summarizing the company's philosophy of turning ideas into fully realized, high-quality spaces.

OUR PROJECTS

PROJECT PORTFOLIO | 2026

FROM VISION TO PREMIUME SPACES

EL GOUNA MOODS RESTAURANT

COMMERCIAL PROJECT

EL GOUNA, RED SEA | 2024

PROJECT OVERVIEW

Restaurant – El Gouna

Green Structure completed a full landscape transformation for MOODS Restaurant in El Gouna – including a custom-built outdoor bar, pergolas, and detailed woodwork – delivering a cohesive, elevated outdoor space in just 30 days.

BEFORE

AFTER

EL GOUNA THE GRILL RESTAURANT

COMMERCIAL PROJECT

EL GOUNA, RED SEA | 2024

nwerá

HURGHADA HAVANA RESTAURANT & PUB

COMMERCIAL PROJECT

HURGHADA, RED SEA | 2024

- 26 -

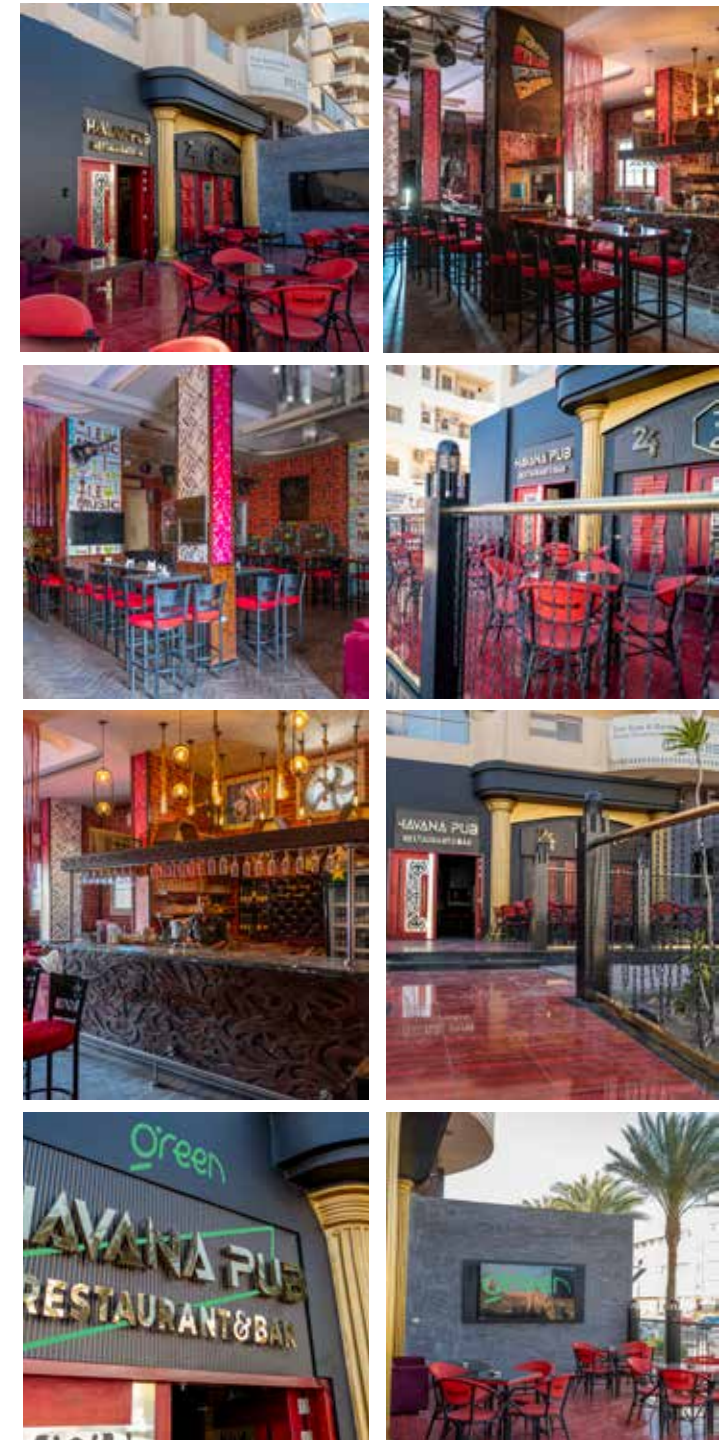

PROJECT OVERVIEW

Havana Pub – Hurghada

Green Structure designed a 200-square-meter venue for Andrea inspired by Havana's intimate, elegant charm, blending authentic Cuban character with a modern touch.

A high-quality sound system was installed to complete the atmosphere and bring the venue's musical spirit to life.

The result is a standout destination for relaxation and entertainment, true to Andrea's vision.
